PROFESSIONAL SUMMARY

Proficient and results-driven business analyst with extensive experience in driving process optimizations, strategic decision-making, and operational efficiency across multiple industries. Owing to a rare combination of extraordinary communication abilities, analytical acumen, and a profound comprehension of business requirements with background in delivering end-to-end IT systems and business change projects. Proficient in working with cross-functional groups to collect, evaluate, and convert intricate specifications into practical understandings and groundbreaking resolutions. Willingness to take on new responsibilities.

WORK HISTORY

Junior Business Analyst

02/2021 - 01/2022

TEIGE CONSULTING LIMITED – Enfield

- Facilitated workshops, performed interviews, and engaged with Business leads to identify, develop, document, and validate requirements as a basis for agreeing on target state, delivery scope and solution options
- Devised and led operational changes to generate significant improvements and measurable results in line with business objectives.
- Led the creation of process flow diagrams (As-Is / To-Be processes) to support functional specifications and created or decomposed requirements into dev-ready user stories that conformed to the INVEST principle.
- Produced written documentation and visual presentations to report data to influence key stakeholders.

Project Analyst

01/2016 - 01/2020

DANGOTE INDUSTRIES LTD – LAGOS

- Assisted with budget monitoring and planning by comparing project expenditures to budgets that have been approved
- Conducted technical and customer meetings, increasing communication and strengthening stakeholder relationships.
- Maintained precise and current project documentation, encompassing project plans, schedules, meeting minutes, and any other pertinent records
- Generated project cost estimations with outstanding accuracy, guiding effective decision-making.
